Thanks Doug. I don't know that we need Gary. I think Sue just wanted a short followup. If John is there, we're good.

Mike

Hey Mike

Looks like we have a short agenda.

- McCaffrey/AWS – Timing of release of preliminary water supply document to public and public meeting. Timing of release to EPA. Response to citizen letter addressed to Commissioner/RA regarding alternate water source and other items.
- Onondaga Lake-update on next steps (not sure how much we can report-we do not have a briefing date yet)
- DEC Update on Northrop Grumman
- DEC update on developing strategy for statewide sampling for 1,4-dioxane and PFAS

Re the Hudson, Gary is off today so I am not sure that he would be available. I think John P will try to participate though. I can try to see if Gary can participate if he is needed.

Also, not for today...but we do have a few things to keep tabs on that are with DEC/DOH for concurrence (Malta ESD, SSCs (Hopewell, Wolff, Peninsula), deletion for Fulton Terminals).

Thanks

Doug

Doug – Some proposed agenda items:

Hudson River - Successful meeting with EPA on the review of the DEC sediment data. Thanks for the attendance of John Prince and Pete Lopez.

McCaffrey/AWS - No date yet for release of the document to the public or public meeting. Would like EPA to be in attendance.

Onondaga Lake - Any date set up for the Upland Sites Groundwater briefing with Jim Wolfert? We are reviewing the briefing document.
